

Function and Play value

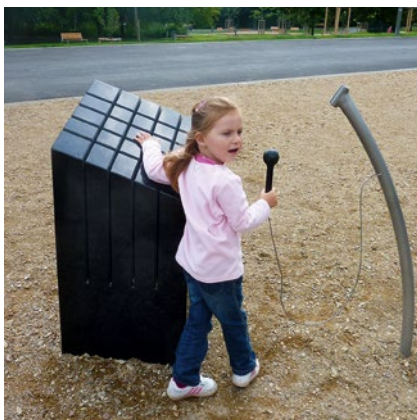

With this stone you can create wonderful notes which resemble the heavenly sounds of a harp. The precisely measured, deep cuts enable the stone to produce a full range of tones. The shorter the cut, the higher the tone. Different notes up to an octave apart can be created.

Suitable

- for public places (i.e. pedestrian areas, waiting areas of stations and bus stations, courtyards)
- public institutions (i.e. kindergartens, daycare facilities for children, schools)
- therapy gardens (i.e. in institutions for people with special needs, rehab clinics, retirement homes)
- parks
- zoological and botanical gardens
- museums, theatres and concert halls
- youth centres and country hostels
- seminar and convention centres

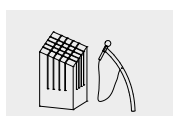

Barrier-free

- independent play

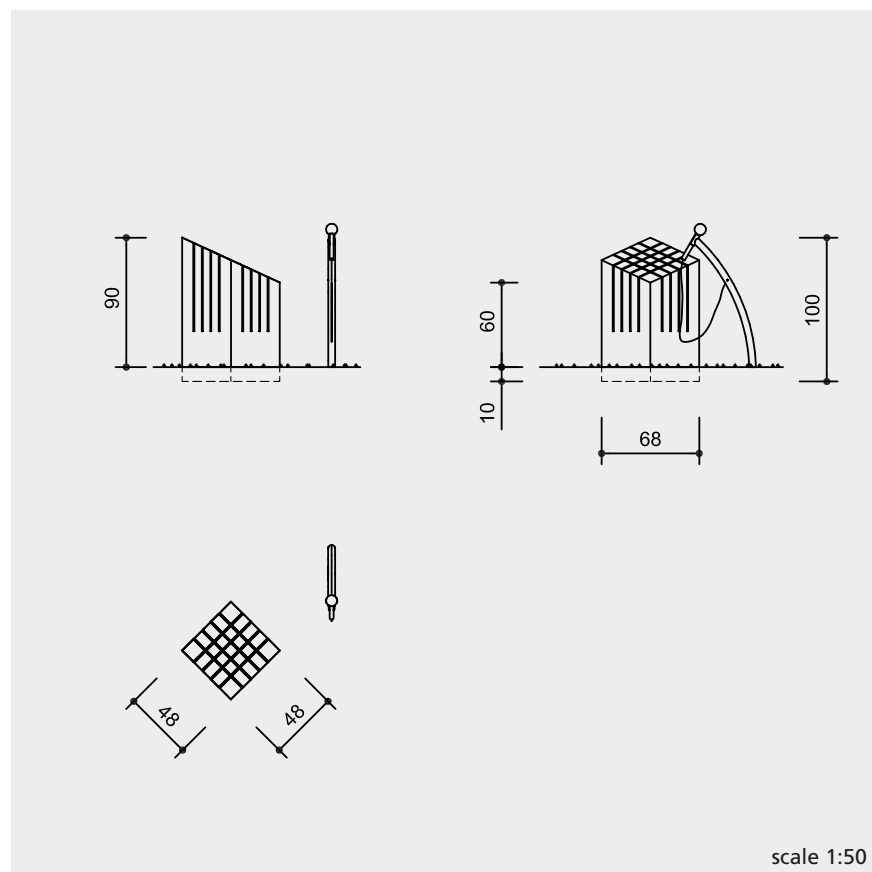

Stone Harp
graubner Play Stations for
Developing the Senses

Acoustic effect	soft
Vandalism	slightly vulnerable
Supervision	not necessary
Explanation board	not necessary
Installation	indoors and outdoors
Safety check (EN 1176)	not necessary
Installation in concrete	possible

10.45000

scale 1:50

Technical information

highly-dense black granite with polished outer surfaces

the top surface is angled in order to create different sounds, cuts are regularly spaced

stand post for beater made of stainless steel

beater of black synthetic material, suspension made of stainless steel cable

Dimensions

(small deviations possible)

total height	1.00 m
width	0.48 m
depth	0.48 m
weight	600 kg

Components

1 Stone Harp with 1 anchor iron
1 beater with stand post and attachment

Explanation board on request

Installation information

Recommended space
3.00 x 3.00 m

Foundations

Stone Harp

1 item 80 x 80 x 50 cm
excavation depth 60 cm
recess 5 x 5 x 20 cm

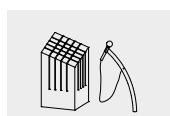

Stand post for beater

1 item 40 x 40 x 40 cm
excavation depth 50 cm

Attention!

Exact measurements may vary, for all installation dimensions refer to current installation instructions.

Technical changes reserved.
