Carousel with Bars

KPL115

Item no. KPL115-0501

General Product Information

Dimensions LxWxH 155x155x81 cm
Age group 4+
Play capacity (users) 10
Colour options

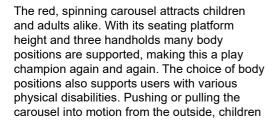

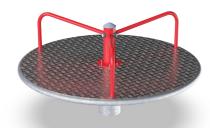

take turns spinning or being spun. Pushing and pulling trains leg and arm muscles as well as condition. Spinning, apart from being a stomach tickling joy, trains the vestibular system and the whole sense of balance. This is fundamental for the child's ability to move around the world safely. It's fundamental for walking, running and even being able to sit still

and concentrate. With a under-developed sense of balance, children can focus on nothing but keeping equilibrium, even when seated. So the fun of carousel spinning serves a true purpose.

5 years

10 years

The steel surfaces are hot dip galvanised inside and outside with lead free zinc and with powder coated top-finish. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Heavy duty engineered bearing system with two single row deep groove high quality ball bearings with rubber seals. The fully closed bearing construction is lifetime lubricated and located above ground.

Deck plate of 3mm thick high-quality aluminium with 2mm texture pattern. This aluminium plate ensures safe play for all users and requires low maintenance.

Item no. KPL115-0501				
Installation Information				
Max. fall height	100 cm			
Safety surfacing area	24.2 m²			
Number of installers	2			
Total installation time	2.4			
Excavation volume	0.45 m³			
Concrete volume	0.40 m³			
Footing depth (standard)	80 cm			
Shipment weight	148 kg			
Anchoring options	In-ground 🗸			
Warranty Information				
Hot dip galvanised steel	Lifetime			
Aluminium deck	15 years

	kg CO₂e	kg CO₂e/kg	%
KPL115-0501	420.20	3.51	43.90

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Validation of CO₂ calculation of: Freestanding play equipment

Data version no. 2021-09-27

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
