The Motivator is a fantastic, slick play unit that will motivate social and physical play again and again. The varied activities support children's play and encourage richer playtimes. Children can climb and slide, along with friends, which supports social relationships and emotional compassion. After climbing up either of the steps, using cross-coordination and strength to

get to the platform, the varied slides offer rewarding ways to return to the ground, alone or with a friend. Sliding apart from training the sense of balance and the core muscles also make children continue to play. Children will find the Motivator great for meeting for play, with all the play variation. The Megaphone adds a social dimension when used to calling friends

to the Motivator for more play. The rich play variety in little space motivates play hugely.
