

HIGHFLIER

PCE205901

Item no. PCE205901-0903	
General Product Information	
Dimensions LxWxH	505 x 528 x 230 cm
Age Group	2+
Play Capacity	18 children
Colour Options	

Wow! The Highflier is a fantastic structure, loaded with play activities. The wide variety of elements will support children's play and encourage longer and richer play times. Children can climb in a variety of ways, and across different surfaces, which is attractive and challenging. The double slide is a rewarding way to return to the ground, that

helps children continue the play along with friends. The megaphone and the specially designed balcony supports active imaginative and make-believe play. The tunnel is a feature that supports crawling movements as well as the development of spatial understanding. Apart from climbing, crawling, and sliding, there are plenty of other opportunities for social play

that will help children to build important social and emotional skills, and will motivate children to play for longer.

HIGHFLIER

PCE205901

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

The ELEMENTS roofs are made of recyclable PE with a minimum wall thickness of 5mm to ensure high durability in all climates around the world. The steel pipes are hot dip galvanized inside and outside for maximum durability.

Sails of commercial 95 high density PE knitted specially for sun-shade structures. The sails are treated with UV stabilizers to ensure a long life-time. The sails are supported by a hot dip galvanized steel frame and tightened by stainless steel devices.

Item no. PCE205901-0903	
Installation Information	
Max. fall height	224 cm
Safety surfacing area	49.1 m ²
Numbers of Installers (persons)	2
Total installation time	20
Excavation volume	0.46 m ³
Concrete volume	0.02 m ³
Footing Depth (Standard)	85 cm
Shipment Weight	587 kg
Anchoring options	In-ground ✓
Warranty information	
EcoCore HDPE	Lifetime
Post	10 Years
HPL Decks	10 Years
Sun shading sails	5 Years
Spare parts guaranteed	10 Years

ELEMENTS decks are made of 17,8mm thick HPL supported by a unique designed aluminum frame with multiple attachment options by usage of aluminum connectors. The main posts are made of high quality pre-galvanized steel with powder coated top finish. Post tops are closed with plastic caps of UV stabilised nylon PA6.

The slides are available in either moulded PE in different colours or in full stainless steel AISI304 t=2 mm.

Steel activities are hot dip galvanized and optional with a powder coated top finish.

Megaphone

Social-Emotional: inspires communication and turn-taking skills.
Cognitive: distortion of sound evokes curiosity and stimulates an understanding of cause and effect.

Tunnel

Physical: the children crawl through the tunnel, developing motor skills such as coordination and proprioception.
Social-Emotional: the holes in the tunnel allows for interaction with the children on ground level.

Balcony

Social-Emotional: the balcony invites meetings and interaction with people on ground level.

Climbing net

Physical: children develop cross-body coordination and muscle strength when climbing. The big meshes allow for climbing and crawling through, supporting proprioception and spatial awareness.
Social-Emotional: the big meshes allow for more children to sit together and talk.

Pipe ladder

Physical: cross-coordination and eye-hand coordination are supported when children climb the ladder. The climbing also supports leg and arm muscles.
Social-Emotional: social interaction when hanging out together, learning about turn taking and cooperation.

Climbing pole

Physical: cross-coordination and muscle strength are trained.
Social-Emotional: turn-taking and cooperation.

Double slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down.
Social-Emotional: invites socializing, supports parent-child and peer-to-peer play.
Cognitive: young children train their understanding of space, speed and distances when sliding down quickly.

HIGHFLIER

PCE205901

PHYSICAL

Joy of movement:
motor skills, muscle, cardio
and bone density

SOCIAL-EMOTIONAL

Joy of being together:
teamwork, tolerance and
sense of belonging

COGNITIVE

Joy of learning:
curiosity, understanding of causal
relationships and knowledge of the world

CREATIVE

Joy of creating:
co-creation and experimenting
with materials

BALANCE

To balance is to stay upright when walking or standing on a surface that makes this challenging (e.g. a wobbly, inclined, or narrow surface).

HANG IN ARMS

To hang in arms is the act of carrying the body with the hands or arms, possibly to traverse to another platform or play item.

SENSORY

To sense is the act of taking in information with the sensory system: seeing, feeling, hearing or sensing with the body.

BOUNCE

To bounce is the act of bouncing on a responsive, flexible, elastic or tensile surface.

JUMP

To jump is the act of jumping up or down on a hard surface.

SLIDE

To slide is the act of moving fast downwards seated on a slide.

CLIMB

To climb is the act of moving upwards, cross-coordinating arms and legs, on a vertical or inclined surface or net.

PULL

To pull is the act of pulling an item towards you or you towards an item with one or both hands, or possibly using the entire body.

SOCIALIZE

To socialize is the act of meeting, communicating or cooperating in an activity that stimulates and facilitates social interaction.

CONSTRUCT

To construct is the act of creating new patterns, shifting items or materials to new positions or constructing with materials that can be transformed or manipulated.

PUSH

To push is the act of pushing an item away from you with one or both hands, possibly with the entire body.

SPIN

To spin involves a fast, repeated horizontal or vertical turn of the body on a piece of equipment that facilitates the movement.

CRAWL

To crawl is the movement of moving forwards or backwards, cross-coordinating arms and legs, on a horizontal or slightly inclined surface.

ROCK

To rock is the action of rocking back and forth, or sideways, on e.g. a piece of spring equipment.

SWAY

To sway is the movement of swaying back and forth, or around, lying, seated or possibly standing, in a pendulant or circular movement, e.g. on a hammock or on a rope.

DRAMATIC PLAY

Dramatic play is motivated through play items that stage a frame, place or environment for acting out make believe or role play scenarios.

ROTATE

To rotate involves a vertical or horizontal slower paced turn of the body, facilitated by a piece of equipment.

SWING

To swing is the movement of swinging back and forth, or in circular movement, seated, standing or lying, in an unhindered arc.

GLIDE

To glide is the act of moving from one point to another without shifting the feet, in a horizontal or vertical movement, in a seated, lying or standing position, letting gravity do the work.

RULES PLAY

Rules play is motivated through play items that suggest games-with-rules, cooperation and team work, e.g. tic-tac-toe, timers or ball games.

WONDER

To wonder is motivated through play items that make children need and use their logical, abstract or creative thinking skills, as well as their memory.
