Wow! The Achiever is a fantastic structure, loaded with play. The varied activities support children's play and encourage longer play times. Children can climb in a variety of ways, and across different surfaces, which is attractive yet challenging. The double slide and curved slides, along with the fireman's pole are rewarding ways to return to the ground, that

help children to continue the play with friends. The specially designed balconies support active imaginative and make-believe play. Apart from climbing and sliding, there are plenty of opportunities for social play that will help children to build important social and emotional skills, and will motivate children to play for longer.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

The ELEMENTS roofs are made of recyclable PE with a minimum wall thickness of 5mm to ensure high durability in all climates around the world. The steel pipes are hot dip galvanized inside and outside for maximum durability.

Sails of commercial 95 high density PE knitted specially for sun-shade structures. The sails are treated with UV stabilizers to ensure a long life-time. The sails are supported by a hot dip galvanized steel frame and tightened by stainless steel devices.

Climbing net

Physical: children develop cross-body coordination and muscle strength when climbing. The big meshes allow for climbing and crawling through, supporting proprioception and spatial awareness.
Social-Emotional: the big meshes allow for more children to sit together and talk.

Climbing pole

Physical: cross-coordination and muscle strength are trained.
Social-Emotional: turn-taking and cooperation.

Balcony

Social-Emotional: the balcony invites meetings and interaction with people on ground level.
Cognitive: invites dramatic play and performance, which stimulates language development.

Megaphone

Social-Emotional: inspires communication and turn-taking skills.
Cognitive: distortion of sound evokes curiosity and stimulates an understanding of cause and effect.

Pipe ladder

Physical: cross-coordination and eye-hand coordination are supported when children climb the ladder. The climbing also supports leg and arm muscles.
Social-Emotional: social interaction when hanging out together, learning about turn taking and cooperation.

Double slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down.
Social-Emotional: invites socializing, supports parent-child and peer-to-peer play.
Cognitive: young children train their understanding of space, speed and distances when sliding down quickly.

Fireman's pole

Physical: coordination is supported when going down, as well as arm and core muscles. Landing strengthens bone density, which is built for life in childhood.
Social-Emotional: turn-taking and risk-taking.
Cognitive: young children develop their understanding of space, speed and distances when gliding down fast.
