## KDSM\_ARCTIC\_GIANT\_EN ARCTIC GIANT

Explore the mountains, search for fossils and animals and investigate the ice caves – the Arctic is a playground for true explorers. With several access and egress points varying in difficulty and height, school-age children are stimulated and challenged repeatedly. The internal transparent climbing wall amplifies the thrill of reaching the top, where the experience and rush of climbing a mountain is mimicked. The plank bridge takes you from the Arctic landscape to the polar research station, where the quest for fossils, valuable minerals or precious metals can begin.

Final designs and data depend on regional safety standards.

| Product Line             | Play Systems                  |  |  |
|--------------------------|-------------------------------|--|--|
| Category                 | GIANTS Inspirational Concepts |  |  |
| Age from                 | 4+                            |  |  |
| Max. fall height (cm)296 |                               |  |  |
| Total height (cm)        | 891                           |  |  |
| Safety Zone              | 146.8 m2                      |  |  |

\* = Highest designated play surface. \*\* = Total height of product.

| Weight/heaviest parts     | kg.    | Installation (Manpower) | Persons |
|---------------------------|--------|-------------------------|---------|
| Concrete required         | NaN m3 | Installation (Hours)    | Hours   |
| Foundation amount/footing | NaN    | Excavation              | NaN m3  |
