

DISCUS

COR15172

Item no. COR151721-1101	
General Product Information	
Dimensions LxWxH	625 x 97 x 290 cm
Age Group	5+
Play Capacity	10 children
Colour Options	

WOW! With its colourful climbing cleats, seats and handholds, the Discus is one big invitation to play. The highly motivating balance, sway and climb experiences attract children again and again. The Discus bounces back the child's movements, adding an element of thrill and demanding concentration to every step. The upper and lower horizontal ropes and bouncy

seats add the possibility to stop for a break. This makes the Discus a very social climbing unit, always offering a rest for less confident rope climbers. Meandering through the Discus trains the balance and cross-coordination. These are fundamental for cognitive skills such as concentration. Climbing here additionally trains muscle strength. When passing friends in

the Discus, turn-taking skills and co-operation abilities are used. All in all, a fun, versatile and social climbing event.

DISCUS

COR15172

Corocord ropes with 19 mm diameter or more are special „Hercules“ – type with galvanised six-stranded steel wires. Each strand is tightly wrapped with PES yarn, which is melted onto each individual strand. The ropes are highly wear- and vandalism-resistant and can be replaced at site if needed.

The steel posts are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Corocord aluminum clamps are used as connectors between steel posts and rope. Two aluminum castings are bolted together. The height of the clamps is thus variable.

Fully coloured EPDM rubber discs with smooth surface. The moulded EPDM surrounds a hot dip galvanised steel core inlay that ensures both the stability of the discs and durable fixation to the rope.

For this product, you have got the choice between 8 rope colours. The assortment is a wide span of colours ranking from elegant and expressive black or natural and toned-down hemp colour, to a range of attractive and eye-catching signal colours.

Item no. COR151721-1101	
Installation Information	
Max. fall height	265 cm
Safety surfacing area	50.1 m ²
Numbers of Installers (persons)	2
Total installation time	8
Excavation volume	4.31 m ³
Concrete volume	2.74 m ³
Footing Depth (Standard)	110 cm
Shipment Weight	366 kg
Anchoring options	In-ground ✓
Warranty information	
Corocord Rope	5 Years
S-Clamps	10 Years
Membrane	2 Years
Spare parts guaranteed	10 Years

DISCUS

COR15172

Discus

Physical: the small knots add support for hands and feet when climbing onto the rope, crawling up or down. This supports spatial awareness, cross-coordination and all muscle groups.

Social-Emotional: the ropes take cooperation when passing other children.

PHYSICAL
Joy of movement:
motor skills, muscle, cardio
and bone density

SOCIAL-EMOTIONAL
Joy of being together:
teamwork, tolerance and
sense of belonging

COGNITIVE
Joy of learning:
curiosity, understanding of causal
relationships and knowledge of the world

CREATIVE
Joy of creating:
co-creation and experimenting
with materials

BALANCE
To balance is to stay upright when walking or standing on a surface that makes this challenging (e.g. a wobbly, inclined, or narrow surface).

HANG IN ARMS
To hang in arms is the act of carrying the body with the hands or arms, possibly to traverse to another platform or play item.

SENSORY
To sense is the act of taking in information with the sensory system: seeing, feeling, hearing or sensing with the body.

BOUNCE
To bounce is the act of bouncing on a responsive, flexible, elastic or tensile surface.

JUMP
To jump is the act of jumping up or down on a hard surface.

SLIDE
To slide is the act of moving fast downwards seated on a slide.

CLIMB
To climb is the act of moving upwards, cross-coordinating arms and legs, on a vertical or inclined surface or net.

PULL
To pull is the act of pulling an item towards you or you towards an item with one or both hands, or possibly using the entire body.

SOCIALIZE
To socialize is the act of meeting, communicating or cooperating in an activity that stimulates and facilitates social interaction.

CONSTRUCT
To construct is the act of creating new patterns, shifting items or materials to new positions or constructing with materials that can be transformed or manipulated.

PUSH
To push is the act of pushing an item away from you with one or both hands, possibly with the entire body.

SPIN
To spin involves a fast, repeated horizontal or vertical turn of the body on a piece of equipment that facilitates the movement.

CRAWL
To crawl is the movement of moving forwards or backwards, cross-coordinating arms and legs, on a horizontal or slightly inclined surface.

ROCK
To rock is the action of rocking back and forth, or sideways, on e.g. a piece of spring equipment.

SWAY
To sway is the movement of swaying back and forth, or around, lying, seated or possibly standing, in a pendulant or circular movement, e.g. on a hammock or on a rope.

DRAMATIC PLAY
Dramatic play is motivated through play items that stage a frame, place or environment for acting out make believe or role play scenarios.

ROTATE
To rotate involves a vertical or horizontal slower paced turn of the body, facilitated by a piece of equipment.

SWING
To swing is the movement of swinging back and forth, or in circular movement, seated, standing or lying, in an unhindered arc.

GLIDE
To glide is the act of moving from one point to another without shifting the feet, in a horizontal or vertical movement, in a seated, lying or standing position, letting gravity do the work.

RULES PLAY
Rules play is motivated through play items that suggest games-with-rules, cooperation and teamwork, e.g. tic-tac-toe, timers or ball games.

WONDER
To wonder is motivated through play items that make children need and use their logical, abstract or creative thinking skills, as well as their memory.
