

Item no. COR151821-1101	
General Product Information	
Dimensions LxWxH	625 x 97 x 290 cm
Age Group	5+
Play Capacity	8 children
Colour Options	

The Prism is a slick, swaying challenge which appeals immensely to children. They try it out again and again, thanks to the perfectly distributed activities in the bouncing unit. The Prism sways and bounces back the child's movements, adding an element of thrill and concentration to the trip across to the other end. The lower wires are great to balance, and

the upper wires add assistance. The sloping of the wires challenge the sense of balance and space, which is basic for being able to sit still on a chair, or for navigating the world securely. The Prism takes movement planning, especially to climb through or over the loop. Passing each other on the way across takes turn-taking skills. This is an important social-emotional skill that is

fundamental for making friends. And friends have nice points to sit at in the swaying metal bars.

COR15182

Corocord ropes with 19 mm diameter or more are special „Hercules“ – type with galvanised six-stranded steel wires. Each strand is tightly wrapped with PES yarn, which is melted onto each individual strand. The ropes are highly wear- and vandalism-resistant and can be replaced at site if needed.

The steel posts are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Corocord aluminum clamps are used as connectors between steel posts and rope. Two aluminum castings are bolted together. The height of the clamps is thus variable.

For this product, you have got the choice between 8 rope colours. The assortment is a wide span of colours ranking from elegant and expressive black or natural and toned-down hemp colour, to a range of attractive and eye-catching signal colours.

Item no. COR151821-1101	
Installation Information	
Max. fall height	275 cm
Safety surfacing area	48.6 m <sup>2</sup>
Numbers of Installers (persons)	2
Total installation time	6
Excavation volume	4.31 m <sup>3</sup>
Concrete volume	2.74 m <sup>3</sup>
Footing Depth (Standard)	110 cm
Shipment Weight	319 kg
Anchoring options	In-ground ✓
Warranty information	
Corocord Rope	5 Years
S-Clamps	10 Years
Membrane	2 Years
Spare parts guaranteed	10 Years

# PRISM

COR15182

## Prism

**Physical:** proprioception and a sense of balance when traversing the bouncy rungs and climbing through the ring. Muscle strength. Bone density when jumping down from hanging in arms.

**Social-Emotional:** cooperation when figuring out how to pass one another, empathy and turn-taking skills.

**PHYSICAL**  
Joy of movement:  
motor skills, muscle, cardio  
and bone density

**SOCIAL-EMOTIONAL**  
Joy of being together:  
teamwork, tolerance and  
sense of belonging

**COGNITIVE**  
Joy of learning:  
curiosity, understanding of causal  
relationships and knowledge of the world

**CREATIVE**  
Joy of creating:  
co-creation and experimenting  
with materials

**BALANCE**  
To balance is to stay upright when walking or standing on a surface that makes this challenging (e.g. a wobbly, inclined, or narrow surface).

**HANG IN ARMS**  
To hang in arms is the act of carrying the body with the hands or arms, possibly to traverse to another platform or play item.

**SENSORY**  
To sense is the act of taking in information with the sensory system: seeing, feeling, hearing or sensing with the body.

**BOUNCE**  
To bounce is the act of bouncing on a responsive, flexible, elastic or tensile surface.

**JUMP**  
To jump is the act of jumping up or down on a hard surface.

**SLIDE**  
To slide is the act of moving fast downwards seated on a slide.

**CLIMB**  
To climb is the act of moving upwards, cross-coordinating arms and legs, on a vertical or inclined surface or net.

**PULL**  
To pull is the act of pulling an item towards you or you towards an item with one or both hands, or possibly using the entire body.

**SOCIALIZE**  
To socialize is the act of meeting, communicating or cooperating in an activity that stimulates and facilitates social interaction.

**CONSTRUCT**  
To construct is the act of creating new patterns, shifting items or materials to new positions or constructing with materials that can be transformed or manipulated.

**PUSH**  
To push is the act of pushing an item away from you with one or both hands, possibly with the entire body.

**SPIN**  
To spin involves a fast, repeated horizontal or vertical turn of the body on a piece of equipment that facilitates the movement.

**CRAWL**  
To crawl is the movement of moving forwards or backwards, cross-coordinating arms and legs, on a horizontal or slightly inclined surface.

**ROCK**  
To rock is the action of rocking back and forth, or sideways, on e.g. a piece of spring equipment.

**SWAY**  
To sway is the movement of swaying back and forth, or around, lying, seated or possibly standing, in a pendulant or circular movement, e.g. on a hammock or on a rope.

**DRAMATIC PLAY**  
Dramatic play is motivated through play items that stage a frame, place or environment for acting out make believe or role play scenarios.

**ROTATE**  
To rotate involves a vertical or horizontal slower paced turn of the body, facilitated by a piece of equipment.

**SWING**  
To swing is the movement of swinging back and forth, or in circular movement, seated, standing or lying, in an unhindered arc.

**GLIDE**  
To glide is the act of moving from one point to another without shifting the feet, in a horizontal or vertical movement, in a seated, lying or standing position, letting gravity do the work.

**RULES PLAY**  
Rules play is motivated through play items that suggest games-with-rules, cooperation and team work, e.g. tic-tac-toe, timers or ball games.

**WONDER**  
To wonder is motivated through play items that make children need and use their logical, abstract or creative thinking skills, as well as their memory.
