

DUO SWING SEAT, H:3,0M

SW990202

Item no. SW990202-00

General Product Information

Dimensions LxWxH	70x80x232 cm
Age group	0-6 Months
Play capacity (users)	2
Colour options	

There is nothing quite like swinging. The Duo Swing Seat adds to the joy by making it possible to swing at eye level with your best friend. The sturdy handholds of the Duo Swing Seat add the possibility of vigorous swinging movements. At the same time, they add to the feeling of security. Swinging on the Duo Swing seat is more than mere fun: the swinging

movements train the child's spatial awareness and sense of balance. Well-trained senses of balance and space help children navigate the world securely and adds to their self confidence. Swinging together on the Duo Swing Seat adds tons of social emotional benefits to the ride: Children learn cooperation and turn-taking when swinging together.

Furthermore, they need to adjust their rhythm in movement. These are great skills in play as well as in making friends.

DUO SWING SEAT, H:3,0M

SW990202

KOMPAN heavy duty designed swing hangers of stainless steel with anti-twist function. The hangers are attached to the cross beam on a welded bracket with two bolts, The bearings are embedded with silicone lubricant and needs no further lubrication.

The Duo Swing seat is fitted with 6mm stainless steel chains.

The frame is powder coated inside & outside hot-dip galvanised steel.

The Duo swing seat can be installed in Kompan A-Frame, Robinia Frame and Portal swing systems for the heights 2.5 and 3.0. The swing seat is not applicable for 2.0.

All soft seat materials are UV and ozone protected to the maximum within the frames of the strongest environmental demands.

The baby seat is made of black TPV (Santoprene) and the design has large leg holes for easy placement of baby/toddler.

Item no. SW990202-00	
Installation Information	
Max. fall height	160 cm
Safety surfacing area	15,5 m ²
Number of installers	2
Total installation time	0.3
Excavation volume	0,00 m ³
Concrete volume	0,00 m ³
Footing depth (standard)	0 cm
Shipment weight	24 kg
Anchoring options	
Warranty Information	
Galvanised/painted metal	10 years
Chains	10 years
Movable parts	2 years
Swing seat	10 years
Spare parts guaranteed	10 years

DUO SWING SEAT, H:3,0M

SW990202

Swing seats

Physical: balance and spatial awareness are stimulated by swinging. These are necessary skills in e.g. judging distances. When swinging vigorously, the arm and core muscles are trained.

Social-Emotional: the cooperation in movement of swinging together trains cooperation, sequencing teamwork understanding and empathy.

Cognitive: cause and effect understanding, managing rhythm and thinking skills for younger children when swinging.

Grip bars

Physical: height and diameter to support grips of sizes from toddler to grandparent.

Social-Emotional: feeling of security when being able to hold onto properly proportioned grip.

DUO SWING SEAT, H:3,0M

SW990202

PHYSICAL
Joy of movement:
motor skills, muscle, cardio
and bone density

SOCIAL-EMOTIONAL

teamwork, tolerance and
sense of belonging

COGNITIVE
Joy of learning:
curiosity, understanding of causal
relationships and knowledge of the world

CREATIVE
Joy of creating:
co-creation and experimenting
with materials

BALANCE
To balance is to stay upright when walking or standing on a surface that makes this challenging (e.g. a wobbly, inclined, or narrow surface).

HANG IN ARMS
To hang in arms is the act of carrying the body with the hands or arms, possibly to traverse to another platform or play item.

SENSORY
To sense is the act of taking in information with the sensory system: seeing, feeling, hearing or sensing with the body.

BOUNCE
To bounce is the act of bouncing on a responsive, flexible, elastic or tensile surface.

JUMP
To jump is the act of jumping up or down on a hard surface.

SLIDE
To slide is the act of moving fast downwards seated on a slide.

CLIMB
To climb is the act of moving upwards, cross-coordinating arms and legs, on a vertical or inclined surface or net.

PULL
To pull is the act of pulling an item towards you or you towards an item with one or both hands, or possibly using the entire body.

SOCIALIZE
To socialize is the act of meeting, communicating or cooperating in an activity that stimulates and facilitates social interaction.

CONSTRUCT
To construct is the act of creating new patterns, shifting items or materials to new positions or constructing with materials that can be transformed or manipulated.

PUSH
To push is the act of pushing an item away from you with one or both hands, possibly with the entire body.

SPIN
To spin involves a fast, repeated horizontal or vertical turn of the body on a piece of equipment that facilitates the movement.

CRAWL
To crawl is the movement of moving forwards or backwards, cross-coordinating arms and legs, on a horizontal or slightly inclined surface.

ROCK
To rock is the action of rocking back and forth, or sideways, on e.g. a piece of spring equipment.

SWAY
To sway is the movement of swaying back and forth, or around, lying, seated or possibly standing, in a pendulant or circular movement, e.g. on a hammock or on a rope.

DRAMATIC PLAY
Dramatic play is motivated through play items that stage a frame, place or environment for acting out make believe or role play scenarios.

ROTATE
To rotate involves a vertical or horizontal slower paced turn of the body, facilitated by a piece of equipment.

SWING
To swing is the movement of swinging back and forth, or in circular movement, seated, standing or lying, in an unhindered arc.

GLIDE
To glide is the act of moving from one point to another without shifting the feet, in a horizontal or vertical movement, in a seated, lying or standing position, letting gravity do the work.

RULES PLAY
Rules play is motivated through play items that suggest games-with-rules, cooperation and team work, e.g. tic-tac-toe, timers or ball games.

WONDER
To wonder is motivated through play items that make children need and use their logical, abstract or creative thinking skills, as well as their memory.
