

FunPoint, Hangout

PCT804

The circular shaped, cool-colored, gently swaying hangout pods of the FunPoint, Hangout attract younger children and tweens alike. With their soft membrane swaying seats that have room for more children seated or hanging in each seat, the hangout pods have children come back to play and exchange again and again. The swaying movements,

apart from being pleasant, also train the sense of space and balance when children rock mildly – or wildly – back and forth. The soothing movements make for longer meetings and conversations with friends, negotiating and turn-taking who is to sit or hang where next. The meeting point character also makes the FunPoint, Hangout perfect as a point to retract

to in the play area.

Item no. PCT804-0901	
General Product Information	
Dimensions LxWxH	499x438x320 cm
Age group	6+
Play capacity (users)	6
Colour options	

FunPoint, Hangout

PCT804

Hangout pod designed with a welded frame of two steel rings which are hot dip galvanized and powder coated. The membrane consist of friction-proof rubberized material of conveyor belt quality with excellent UV resistance.

Powder coated post are made of high quality pre galvanized steel with powder coated top finish. Post tops are closed with caps of UV stabilized nylon (PA6).

The steel surfaces are hot dip galvanized inside and outside with lead free zinc. The galvanization has excellent corrosion resistance in outside environments and requires low maintenance.

Item no. PCT804-0901	
Installation Information	
Max. fall height	34 cm
Safety surfacing area	41.7 m²
Number of installers	2
Total installation time	10.1
Excavation volume	3.01 m³
Concrete volume	0.00 m³
Footing depth (standard)	90 cm
Shipment weight	432 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
Hot dip galvanised steel	Lifetime
Painted toplayer	10 years
Membrane	2 years
Spare parts guaranteed	10 years

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Validation of CO₂ calculation of: Themed play systems

Data version no. 2021-09-27

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Themed play systems" represented by item no.: MSC641100-3717P.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
