

# Tumbler

PCE200121

Item no. PCE200121-0602

### General Product Information

Dimensions LxWxH	560x465x324 cm
Age group	1+
Play capacity (users)	30
Colour options	

The Tumbler is a spacious, truly varied play structure which attracts young children immensely. It offers multiple potential layers of play activities to investigate. This attracts the toddlers back again and again. The bouncy activities with rubber membranes are fun, training the children's sense of balance and their ability to cooperate. The responses to

their movements additionally train cognitive skills. The many play panels can be accessed from both sides, stimulating social play and turn-taking. The transparent design and the ground level play corners and panels make the Tumbler playable from all sides. Many children can be active at the same time. The Tumbler is rich in play opportunities for toddlers, training

their cognitive, creative, social-emotional and physical development.

The Curved ELEMENTS panels are moulded of UV stabilised recyclable PE with multiple options for in-built play features that also ensures a strong panel solution. Straight panels are made of KOMPAN 19mm PE EcoCore™ which is a highly durable, ecofriendly and recyclable material.

The ELEMENTS roofs are made of recyclable PE with a minimum wall thickness of 5 mm to ensure high durability in all climates around the world. The steel pipes are hot dip galvanised inside and outside for maximum durability.

ELEMENTS products are available in three different colour combinations: classic blue & green, blossom orange & yellow, nature lime and green.

The main posts are made of high quality pre-galvanized steel with powder coated top finish. Post tops are closed with caps of UV stabilized nylon (PA6). The grey colored molded decks are made of 75% post-consumer ocean waste PP material with a non-skid pattern and texture surface. All decks are supported by unique designed low-carbon aluminum profiles with multiple attachment options.

ELEMENTS rubber membranes are conveyor belt made of layers of rubber mixed of natural rubber and SBR rubber, and embedded with layers of armouring made of woven PE and PA. The thickness 8mm ensures high durability in any environment.

The slides are available in either moulded PE in different colours or in full stainless steel AISI304 t= 2mm.

Item no. PCE200121-0602

### Installation Information

Max. fall height	100 cm
Safety surfacing area	46.6 m <sup>2</sup>
Number of installers	2
Total installation time	27.3
Excavation volume	0.60 m <sup>3</sup>
Concrete volume	0.11 m <sup>3</sup>
Footing depth (standard)	80 cm
Shipment weight	832 kg
Anchoring options	Surface ✓ In-ground ✓

### Warranty Information

EcoCore HDPE	Lifetime
Post	10 years
Curved panels	10 years
Membrane	2 years
Spare parts guaranteed	10 years

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
<b>PCE200121-0602</b>	1,743.90	2.70	37.20

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

### Validation of CO<sub>2</sub> calculation of: Play systems

Data version no. 2021-01-11

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200309-0010. (Scope 3 emissions include emission sources in the upstream and downstream value chain).
