

The iconic, geometric shaped BLOQX? 1 motivate climbing and meeting in teenagers and older children. With its sculptural look and professional climbing grips, BLOQX? invites scalable climbing challenges and games to grow with. The design allows room for socializing and exchange with its ridges and valleys. The possibility of climbing, crawling and balancing at your own speed makes the BLOQX? a safe stage for children at different climbing levels. Due to the versatility, they will enjoy BLOQX? and return for more. The varied grip and panel positions train muscle strength and motor skills: cross-body coordination, proprioception and spatial awareness. These positively affect among others concentration skills. Social-emotional skills such as consideration are used when children climb and meet together on the BLOQX?.
