

BLX410401 BLOQX 4

A diverse bouldering route around the structure with a lot of critical spots to overcome, several great places for hanging-out and a challenging top to mount with a fine overview as reward i characterizes the Quatro BLOQX. The structure provides climbing for large numbers of climbers and offers at the same time enough spaces for rest and observation to make the structure interesting for an audience that watches either the climbers or e.g the players on an adjacent ballgame space. By choosing plates of certain colours as climbing areas or concentrating on one of the two grip colours, routes of various complexity can be chosen.

Product Line	Urban climbing
Category	BLOQX™
Age group	8 - 15
Max. fall height (CM)	300
Total height (CM)	300
Safety Zone	39.7 m2
