

The iconic, geometric shaped blocks motivate climbing in teenagers and older children. With its sculptural look and professional climbing grips, Bloqx invites scalable climbing challenges and games to grow with. The design allows room for socializing and exchange with its ridges and valleys. The possibility of climbing, crawling and balancing at your own speed makes the BLOQX? a safe stage for children at different climbing levels: The creation of new climbing routes and methods with friends or individually makes for hours of thrill and climbing play. The varied grip and panel positions train muscle strength and motor skills: cross-body coordination, proprioception and spatial awareness. These positively affect among others concentration skills. Thinking skills are used, figuring out routes. Social-emotional skills e.g. consideration are used.

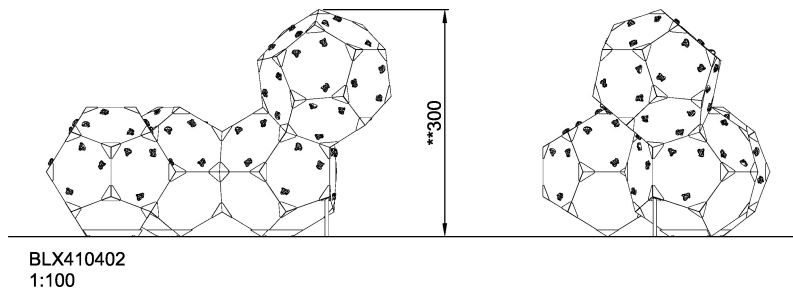

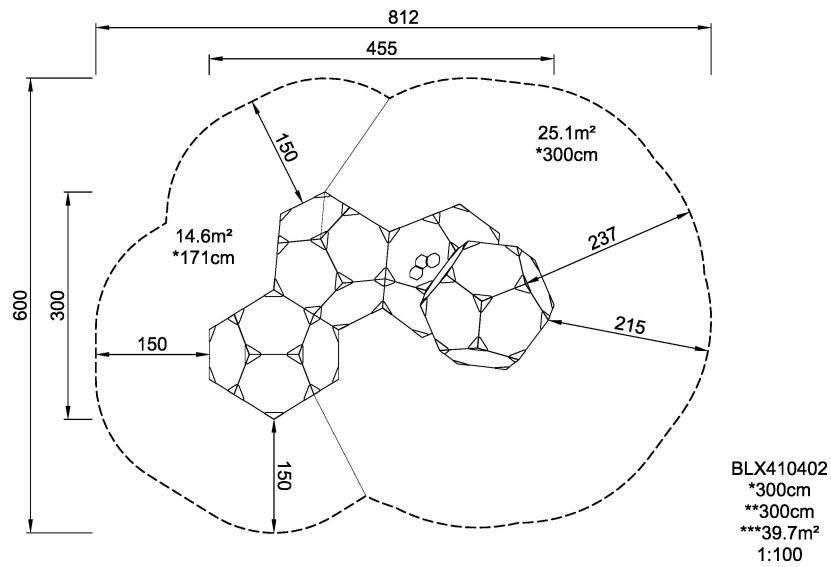

<b>Product Line</b>	Urban climbing
<b>Category</b>	BLOQX™
<b>Age group</b>	8 - 15
<b>Max. fall height (CM)</b>	300
<b>Total height (CM)</b>	300
<b>Safety Zone</b>	39.7 m2
