

COR10280

Large Octa Net + add-ons

KOMPAN[®]
Let's play

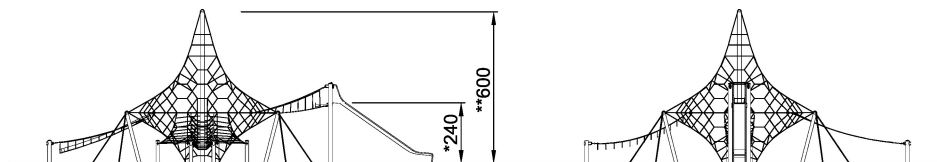

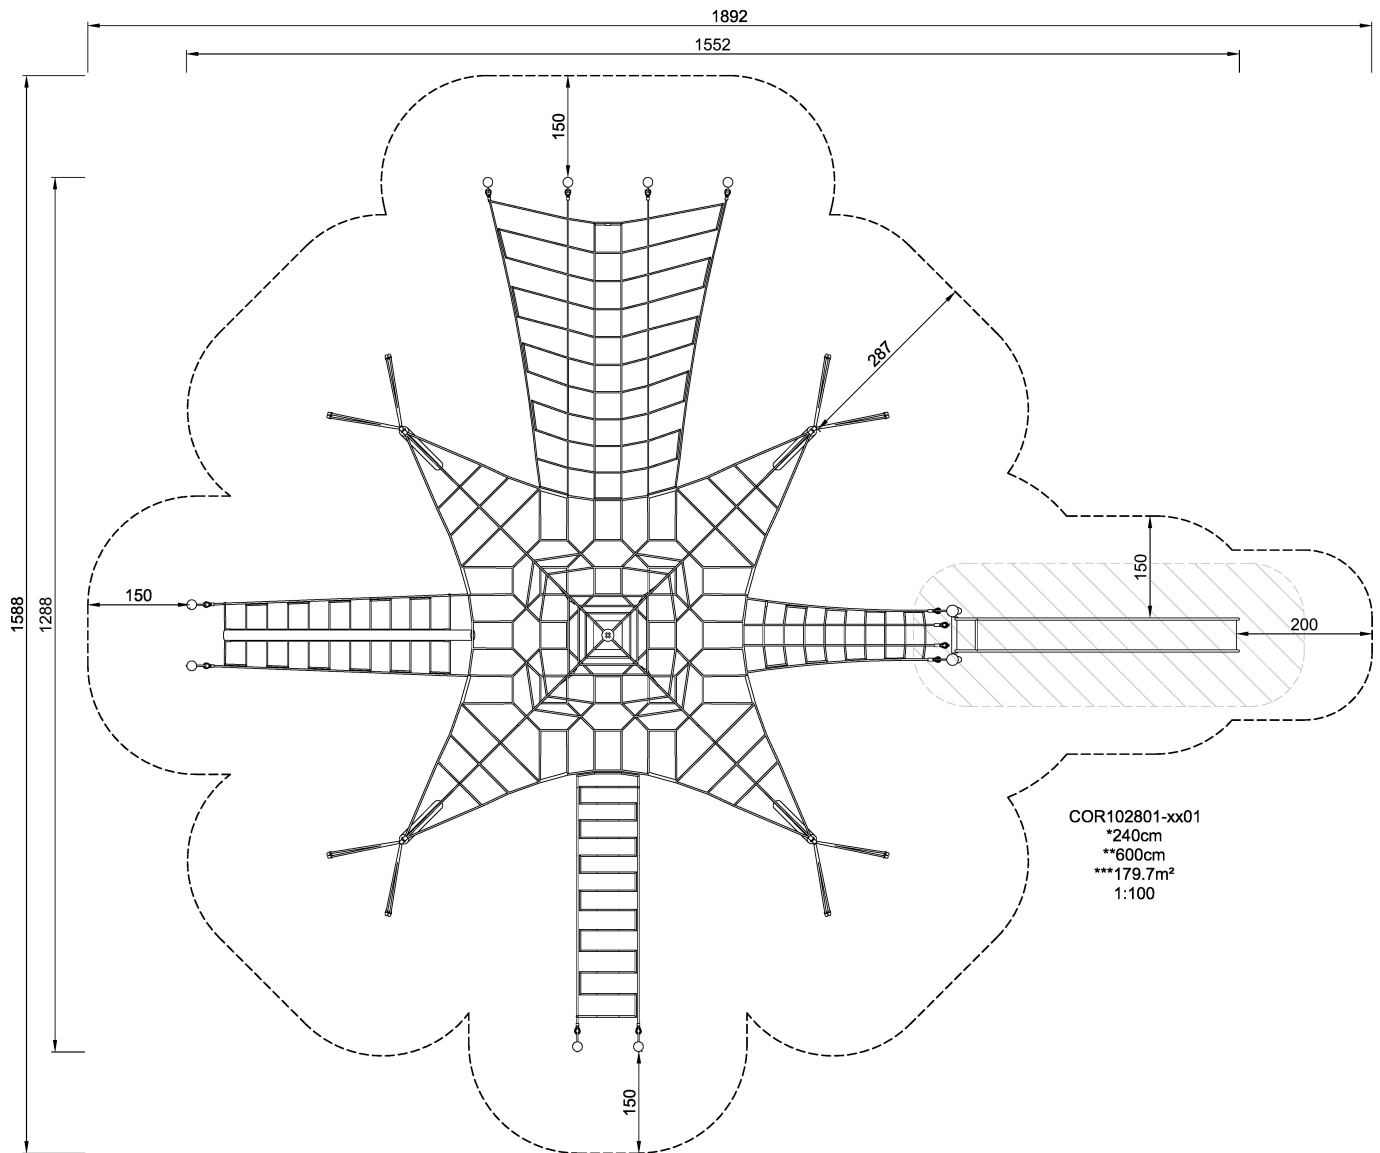

The Large Octa Net makes children go wow with awe. It motivates play and revisits with its multitude of dense, bouncy climbing fun. The bouncy route to the top is a great challenge and gives users a strong sense of achievement when they reach the top of the mast and enjoy the view of the entire area. Climbing in the net trains all major muscle groups and motor skills such as cross coordination and balance, which are crucial for children's concentration skills, too. When the children need a break, they can socialize on the membranes, training turn-taking skills and negotiation. The slide is a fun egress from the nets. The loop up the coconut rope or rope ladder through the net, down the slide, is a loop that will attract again and again, for a long time.

Product Line	Corocord™ rope playground
Category	Spacenets™
Age group	5+
Max. fall height (CM)	240
Total height (CM)	600
Safety Zone	179.7 m ²

**IN-
GROU.**

COR102801
1:300

* = Highest designated play surface.
** = Total height of product.
