**Agility Package 30**

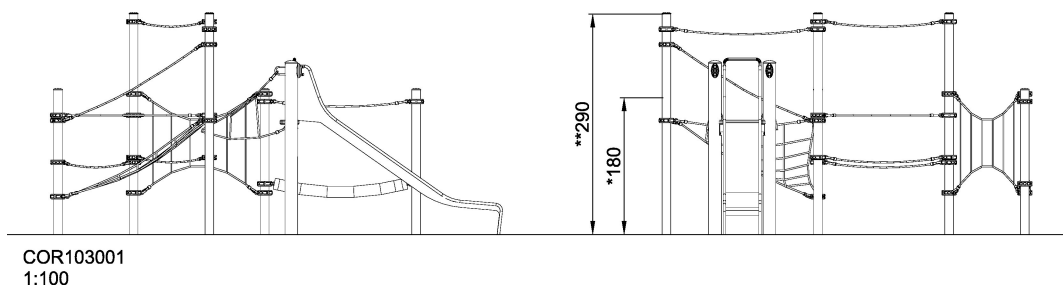

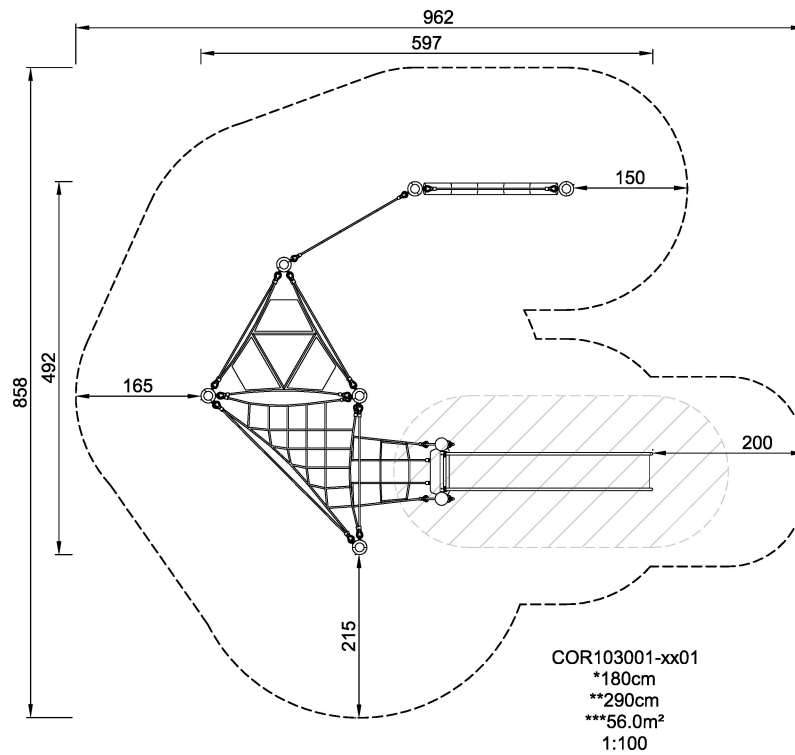

The Small Amusement Net with slide is an exciting and multifunctional agility structure that attracts play instantly. From ground level children can walk the coconut rope and continue through the vertical net link. Afterwards they can take a break on the membranes before climbing in the triangular net to the slide for a fun egress back to ground level. Climbing and balancing in the Small Amusement Net is challenging and trains the motor skills' ABC: Agility, Balance and Coordination. These motor skills are fundamental to children's ability to for instance sit still and concentrate. The membranes invite meetings and stimulate children's social-emotional skills, such as turn-taking and self regulation.
