

COR10501

Cubite with house membrane

The Cubite with House Membrane is an immense three-dimensional rope environment that thrills children again and again. The variety in climbing ensures hours of play. The steel frame is a destination in its own right, offering a break or a meeting point. The membranes add a fast, bouncy way to the top and function as destination and meeting points at the same time. Social interaction and stimulation of cooperation is encouraged here. The bouncy ropes and nets of the Cubite add thrill: the child can feel its own and all the friends' movements when using the net. At this height that means risk assessment and concentration. The nets also train important motor skills such as proprioception, spatial awareness and cross-body coordination. These skills are fundamental for risk assessment when for instance judging and navigating traffic securely.

Product Line	Corocord™ rope playground
Category	Frame Nets
Age group	5+
Max. fall height (CM)	300
Total height (CM)	300
Safety Zone	43.4 m2
