

The Meditate with House Membrane offers a wild climbing experience in three-dimensional nets. The meandering, bouncy climbing paths appeal immensely to children. The thrilling heights and transparency of action attract children again and again and make them want to come back. Membranes add fast, bouncy routes to the top and function as destinations and meeting points, too. Social interaction and stimulation of cooperation is encouraged here. The bouncy ropes and nets of the Meditate add thrill: the child can feel its own and all the friends' movements when using the net. At this height that means risk assessment and concentration. The nets train important motor skills such as proprioception, spatial awareness and cross-body coordination. These skills are fundamental for risk assessment when for instance judging and navigating traffic securely.

<b>Product Line</b>	Corocord™ rope playground
<b>Category</b>	Frame Nets
<b>Age group</b>	5+
<b>Max. fall height (CM)</b>	165
<b>Total height (CM)</b>	446
<b>Safety Zone</b>	51.7 m2

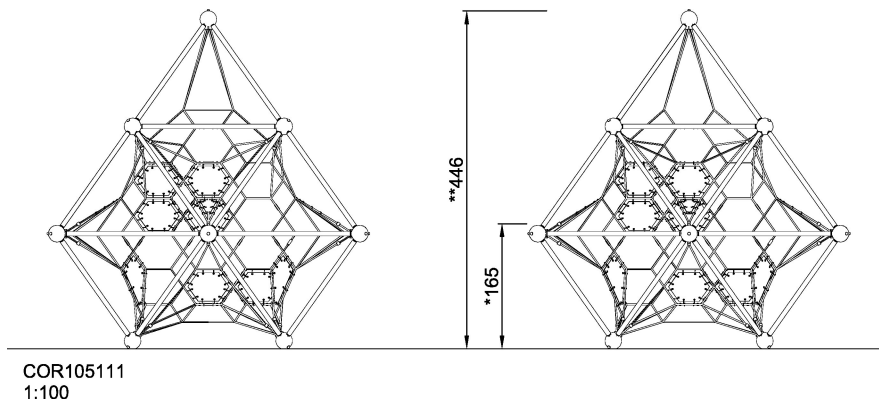

INCLUSIVE
