

COR24301
Crumb Net

The Crumb Net offers an irresistible, swaying climb, with a clear, solid destination working as meeting point and viewpoint. The big meshes allow for children climbing through to play under the deck, socializing. Major muscle groups get used when children climb in the Crumb Net: arms push and pull, legs push and the core provides stability. All these physical skills and the act of climbing up are fundamental to motor skills such as cross-body coordination and spatial awareness. This positively impacts children's ability to judge distances and navigate securely, for instance in traffic.

Product Line	Corocord™ rope playground
Category	Early Climbing
Age group	3+
Max. fall height (CM)	120
Total height (CM)	240
Safety Zone	26.4 m2

IN-GROU.

ASTM

* = Highest designated play surface.
** = Total height of product.
