

WOW! That's the reaction of children when they experience the Jellyfish: a transparent landmark with tentacles around its edges! The Jellyfish is guaranteed to deliver an unusually fun and challenging climbing experience. The transparent construction gives a good view both from the outside and from the inside. Muscle strength, balance and cross-coordination are trained when children climb the greatly varied entries into the platform: swaying nets with or without climbing cleats, sturdy poles and rope ladders with bouncy rubber membranes. The spacious platform inside the Jellyfish is a desired meeting point for groups of children. The tilted floor makes it fun, as children need to adjust their muscle tension to stay in balance. Social-emotional skills such as self regulation are trained in the Jellyfish.

Product Line	Corocord™ rope playground
Category	Play Towers
Age group	5+
Max. fall height (CM)	245
Total height (CM)	445
Safety Zone	72.6 m2

* = Highest designated play surface.
 ** = Total height of product.

Weight/heaviest parts	kg.	Installation (Manpower)	Persons
Concrete required	NaN m ³	Installation (Hours)	Hours
