**Octa Net S**

Mirror images have a certain magic. This goes for the magician's stage just as it does for playing in the Corocord Octa Nets. The fascinating rope play equipment is designed as two Spacenet that are reflected at the base to make a double ingenious Spacenet. The upper tip of the filigree Spacenet structure stretches into the sky while the bottom tip mysteriously vanishes in the ground. At the heart of the Octa Nets, a large number of truncated octahedrons invite children to climb and offer a variety of adventures.
