

COR43481 Octa Net XL

With its impressive height and transparency, the Giant Octa Net intensely motivates children to climb up high. The feeling of achievement when having climbed to the top is phenomenal. Also due to the constant sway of the net: the children's climbing movements sway the net, creating thrill. This makes children come back again and again to have more of the bouncy, climbing fun. Climbing the bouncy, interdependent meshes of the transparent net is challenging and trains important motor skills e.g. balance and coordination. These motor skills are fundamental to sitting still or navigating traffic safely. Major muscle groups get used when children climb the Giant Octa Net : arms push and pull, legs push and the core provides stability as the children cling onto the ropes. The Giant Octa Net trains courage and self regulation, skills necessary for children's social-emotional development.

Product Line	Corocord™ rope playground
Category	Spacenets™
Age group	8+
Max. fall height (CM)	300
Total height (CM)	1045
Safety Zone	254.8 m2

* = Highest designated play surface.
** = Total height of product.

Weight/heaviest parts	kg.	Installation (Manpower)	Persons
Concrete required	NaN m3	Installation (Hours)	Hours
