

The Cubite offers a wild climbing experience in three-dimensional nets. The meandering, bouncy climbing paths appeal immensely to children. The thrilling openness and transparency of action attract children again and again and make them want to come back. The bouncy, symmetric net cubes take concentration when climbing, as all the movements of other climbers can be sensed throughout. This means risk assessment and concentration. Social interaction and stimulation of cooperation is encouraged here. The nets train important motor skills such as proprioception, spatial awareness and cross-body coordination. These skills are fundamental for risk assessment when for instance judging and navigating traffic securely. The rich climbing experiences from bottom to top graded challenge in play, which means high play capacity.

Product Line	Corocord™ rope playground
Category	Frame Nets
Age group	5+
Max. fall height (CM)	300
Total height (CM)	300
Safety Zone	43.4 m2
