

COR85500

Ocean Dome

Huge, blue net-waves call the children for a climb expedition in vast, bouncy, 3-D nets. Climbing to the top is fun due to the rich variation of routes and ways to climb. Levelled play, from the easy entry embankment net to agile climbs through triangular plates, invite all to play. Rattling sound elements add sensory play. The rubber wave, play shell and rubbery yellow seats offer versatile places for social interaction and bouncy breaks. This rich variety of climbing, bouncing, rocking and swaying create immense holding power for all abilities and a wide age span. The climbing variety intensely trains the child's muscle and motor skills, an enabler of for instance concentration skills. The transparency of the nets makes social interaction possible throughout, adding to social skills such as cooperation. Sensory elements add to children's thinking skills.

Product Line	Corocord™ rope playground
Category	Domes & Arches
Age group	5+
Max. fall height (CM)	300
Total height (CM)	450
Safety Zone	122 m2
