

COR88200
Crystal Sphere

The eight legged, spider-like Crystal Sphere appeals immensely to children. With its webs and climbing opportunities, it will attract children again and again. The interconnected nets and rubber ladders offer fun and challenging climbs: when one child moves it affects all the other climbers in the huge, swaying web of nets. The Crystal Sphere caters for a lot of children in play at the same time. Apart from being great fun, the Miracle Sphere offers ample training of all major muscle groups and fundamental motor skills: all muscles are in use when clinging onto the ropes or climbing up high. Important motor skills such as cross-body coordination and spatial awareness are trained. These skills are fundamental e.g. when judging distances and managing traffic securely. The swaying web calls for con-sideration and turn-taking, social-emotional skills learned in play in the Crystal Sphere.

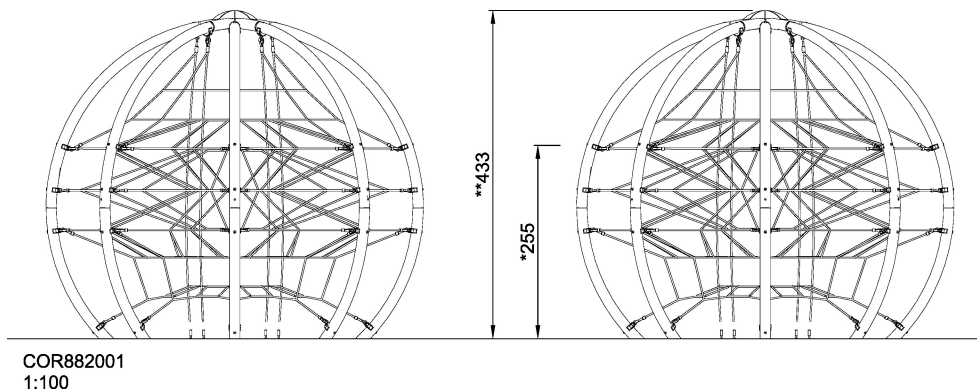

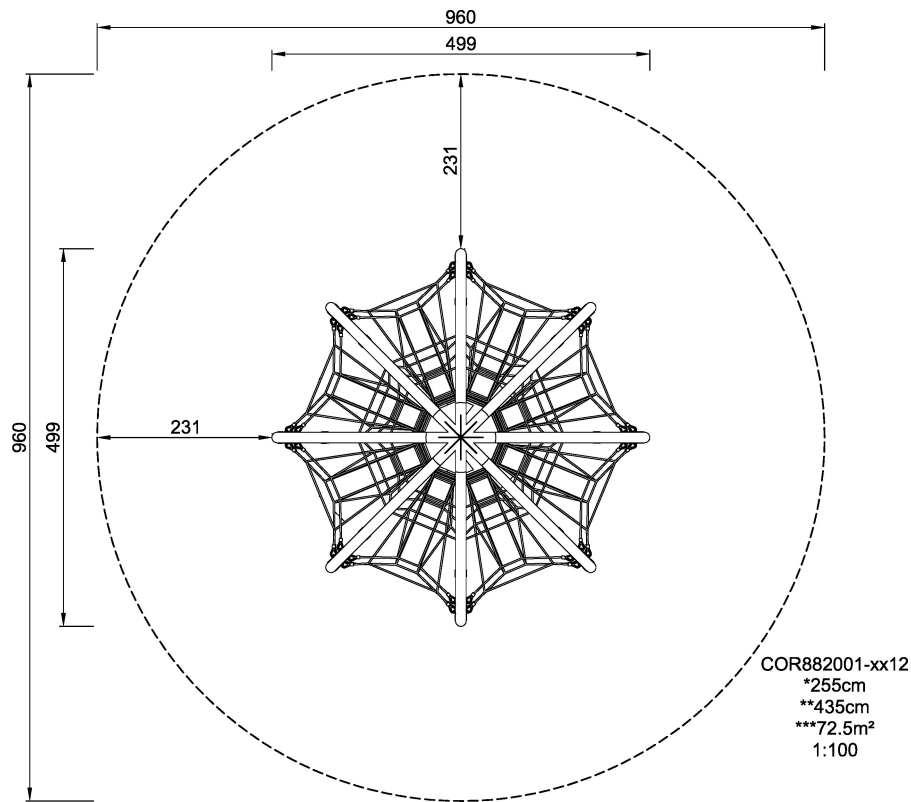

Product Line	Corocord™ rope playground
Category	Domes & Arches
Age group	5+
Max. fall height (CM)	255
Total height (CM)	435
Safety Zone	72.5 m2

IN-GROU.

ASTM

* = Highest designated play surface.
** = Total height of product.
