

FAZ50100 City Bike

The City Bike provides a comfortable and challenging ride for all users. The frame is designed with a low open entry and ergonomics promoting an upright riding style. The saddle is made wide to give the most support, and it is adjustable in 13 heights accommodating people from 150 cm to 205 cm.

An innovative self-powered electrical motor (patent pending) creates resistance similar to a real road cycle. The resistance automatically adapts depending on pedaling speed, but users can also choose to manually change the resistance through a Bluetooth-connected KOMPAN Cardio app.

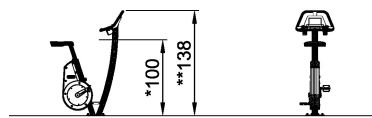

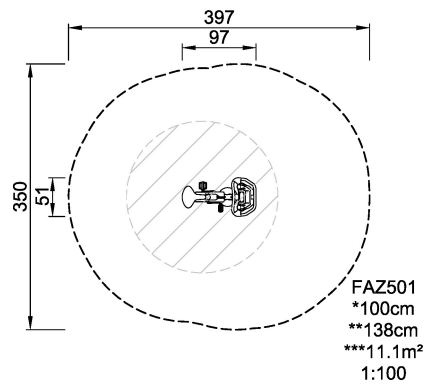

Product Line	Outdoor Fitness
Category	Cross Training
Age group	13+
Max. fall height (CM)	100
Total height (CM)	138
Safety Zone	11.1 m ²
