CLASSIC Pitch 12x24 m

KOMPAN
Let's play

A multisport pitch includes two goals with built in basketball hoops and a height adjustable multisport net in the middle of the play area. The panels in the goal area are angled at 45° to prevent climbing. The goals have anti-moped barriers which can be removed for wheel chair access and the goal back wall has nylon nets. All barriers including the lower side barriers are designed with full frames of steel with lower grass protection profile. This full frame design improves durability in urban non supervised areas. The pitch is based on a modular system. The dimensions of the pitch can be customized according to individual requirements. The steel structure can be supplied with powder coated surfaces in different colors. It can also be equipped with a number of additional activities.

Product Line Multi Use Games Area

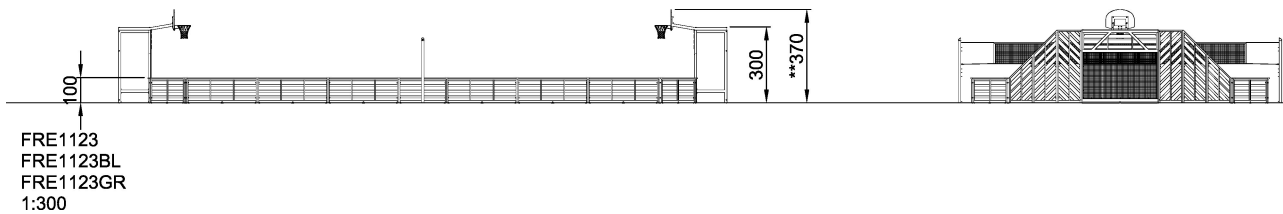

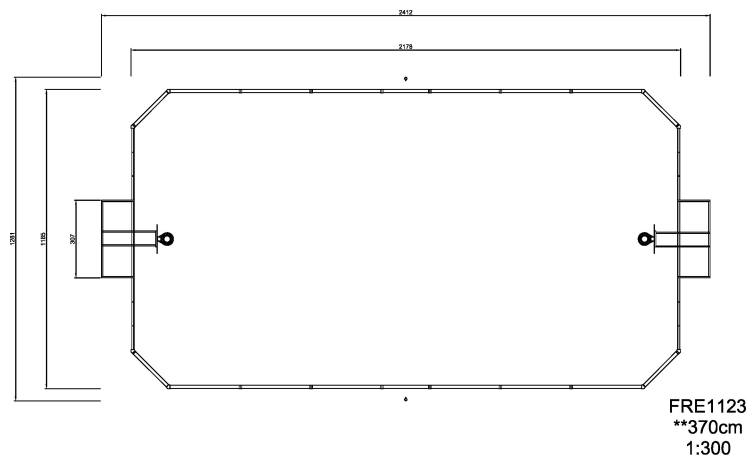

Category Classic Multi Sport

Age group 3+

Total height (CM) 370

ASTM

* = Highest designated play surface.
** = Total height of product.
