

FRE600302

MUGA, 14x23 meter, Low 1m, Plate Design

The EcoCore™ is a highly durable, ecofriendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material. The core has a thickness of 15 mm and is representing 80% of the total material. The fully flat inside gives the best bounce experience when playing. The flat wall becomes a part of the game and adds a new dimension to it. A dimension that can challenge and develop players' tactical vision of the game. The 3 m x 2 m Multi Goal follows the goal size of FIFA Futsal and IHF Handball regulations.
