

# FSW21600 Wall with Net

The wall consists of two segments. The left side is a flat wall of almost 2.40 m high which can be conquered by the fittest. The right side has three steps to assist the feet and eight handles to help you get over the wall. The scalable Wall makes it fun for everyone to play or train together. The fit ones develop muscle strength and bone density when jumping over. Others develop their self-esteem if they dare to climb up. The Wall is standard available in Orange, RAL2010 and Grey, RAL7012. All other RAL colors are available on request. It will always be possible to match the surroundings or color theme!
