Mode of Fixation

## Security Area:

## Technical Characteristics:

### Materials

Structure: Stainless Steel AISI 304;

Plastic parts: HDPE;

Ironmongery: Stainless Steel AISI 304;

Bearings: SKF rigid spheres with a shielded career on both sides (no need to maintenance and lubrication);

Finishing: Brushed;

Type of Fixation: by 1 negative provided;

Optional: Stainless Steel AISI 316;

Note: You must ensure that the equipment is correctly installed at the negative. Align the drilling equipment before drilling negative as illustrated by picture.

## Maintenance

Every week: carry out a visual check on the general state of the element to make sure there are no breakages or damages to endanger users;

Every month: check that the joints move smoothly. Grease them if necessary. Ensure that the element is as structurally stable as when it was new. Check the state of all the screws, bolts and their protection;

Every year: check there is no corrosion on the metal legs. Check all ground fixings;

**EXECUTION MODE:** Sit on the bench with your back well supported, bend both legs (flexion). Support your hands on your knees and use your feet to push the pedals (flat blue area) to stretch your legs (extension). Consider a motion replay of extension followed by the flexion of the legs (back to starting position).

**Caution:** Consult your doctor before performing these exercises. Children should be supervised by an adult.

**Bragmaia:** Zona Industrial das Cantarias, Rua Arq.º Viana Lima, lote 131, 5300-427 Bragança - Portugal
