

GXY925
Canopus

Canopus is a space station. From the solid centre core, the space trip can be planned or observed. The open triangle and the play shell offer climbing and seating facilities for those who want to stay centred. Entering the triangle puts demands on the neglected triceps of today's children. The spinning move forces the children to recollect themselves and regain control - a both physically, socially and emotionally valuable experience.

Product Line	Traditional Play
Category	Supernova, carousels & spinners
Age group	6 - 15
Max. fall height (CM)	249
Total height (CM)	293
Safety Zone	55.7 m2
