

Regulus' appealing colour spots and great, swaying, bouncy destinations attract and cater for playful children of all abilities. The slanting nets make various body positions possible, thus catering for users of all abilities and a wide age span. All activities in the Regulus bounce or sway. This is a fundamental motivation factor for play. The interconnectedness of the nets means that the children feel the movement of the other children climbing. The intense physical feedback, the meeting points and the transparency of the nets support fun, social play, for a long time. When children climb, bounce and sway in the Regulus, they train their balance, proprioception and spatial awareness intensely. This supports skills needed for e.g. sitting still at on a chair, concentrating.

<b>Product Line</b>	Urban climbing
<b>Category</b>	GALAXY™
<b>Age group</b>	6 - 12
<b>Max. fall height (CM)</b>	249
<b>Total height (CM)</b>	265
<b>Safety Zone</b>	49.1 m2
