

Awesome in play versatility and immense multi-functionality meets the older children: hours and days of climbing, spinning, balancing, rocking, swaying. All in a transparent universe that allows for play with peers through, over, in and out the structure. Accessible from ground level for all abilities to play. The many, moving socializing or break points contributes to the repeated attraction of the piece. The climbing, bouncing, spinning, gliding and rocking activities vastly train the motor skills ABC: Agility, Balance and Coordination. Muscles are strengthened from climbing. Cardio is trained when running or pushing and pulling friends on spinners. Bone density is trained when jumping on and off. The children's social-emotional skills are developed by the many turn-taking and socializing activities. The logical thinking and memory is stimulated on the spinning items.

Product Line	Urban climbing
Category	GALAXY™
Age group	6 - 15
Max. fall height (CM)	257
Total height (CM)	293
Safety Zone	164.6 m2
