Play tower with swing 2,0m, alu posts & full steel slide

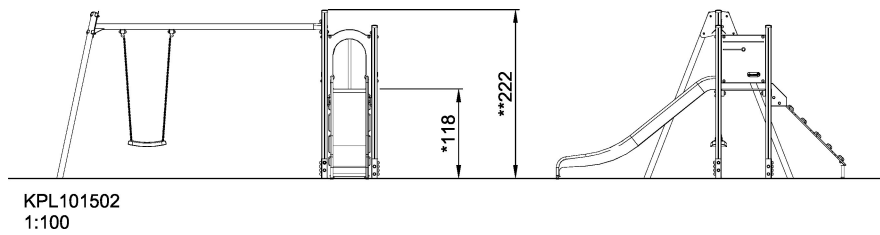

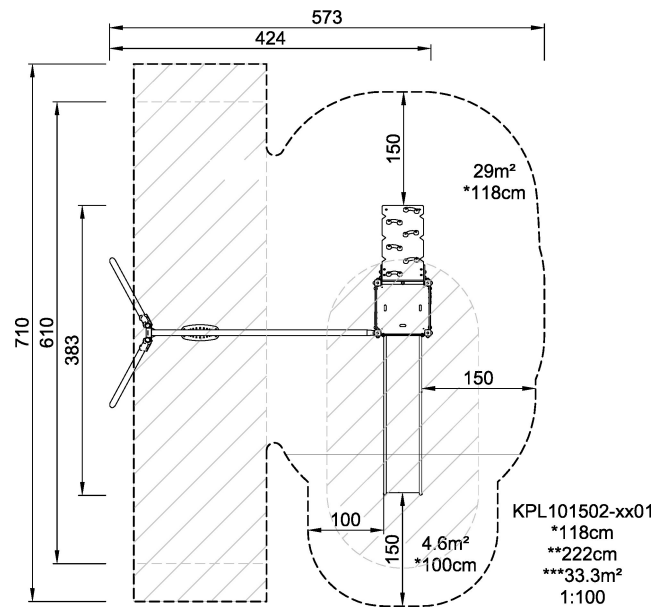

For the active preschooler this unit with a swing is the perfect fun. The steep climbing wall takes the toddler to the platform from which either a dare-devil fireman's pole, mainly to the older or the age group, or a stomach tickling slide, takes the child back to the ground level. In a playful and fun way both muscle and motor skills are stimulated, forming a basis for mastering both social skills and thinking skills.
