Two tower with net bridge, alu posts & full steel slide

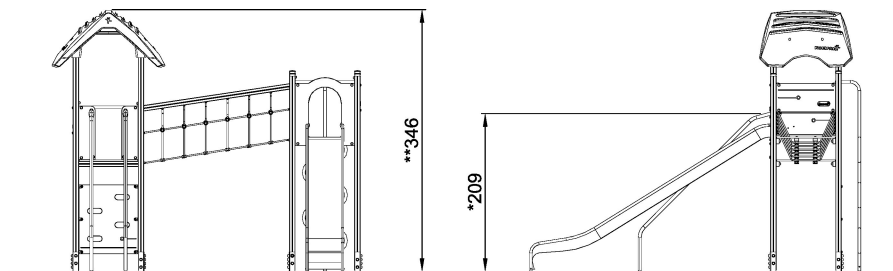

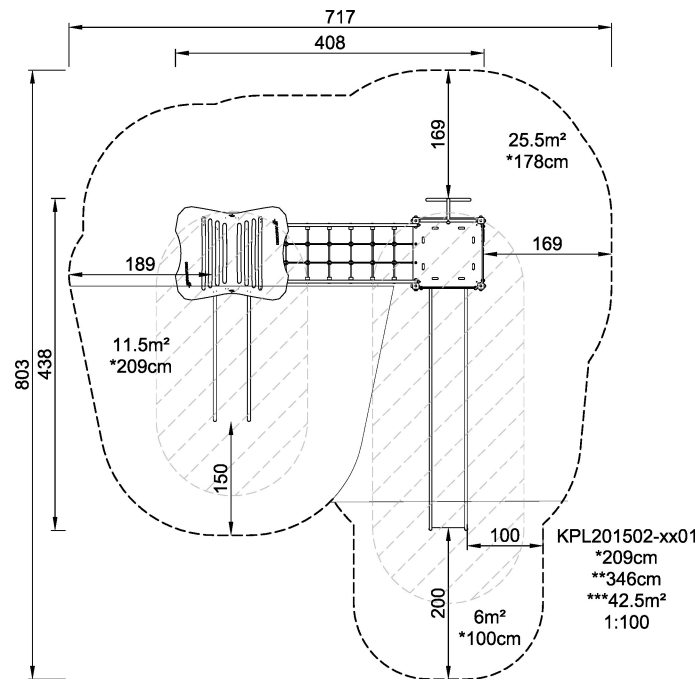

Children will never get bored with this double play tower. This unit offers a variety of physical challenges. The child can take the way up to the two platforms via the climbing wall with step holes or the climbing pole. From the two platforms a classic slide ride or a glide down the dare devil Banister Bars are fun ways back to the ground. The two towers are bridged by a wobbly plank bridge that takes a lot of concentration and demands a good sense of balance.
