# Three tower w/ panel bridge, wood posts & plastic slide

This play home-themed structure supports all toddlers wanting to climb from one platform to another due to the accessible stairway. The structure is wide enough to room an assistant and with good grips in the floors. The transfer platform at the stair entrance makes a good seat as well. The slide leads the child back to ground level at full speed. Under the platform a nice space awaits with a seat supporting meetings, friendly chats and not least shopping, sleeping, exhibiting or whatever is needed for today's play.
