

# KRS-CONCEPT-DINOSAUR

## Dinosaur Play Sculpture

---

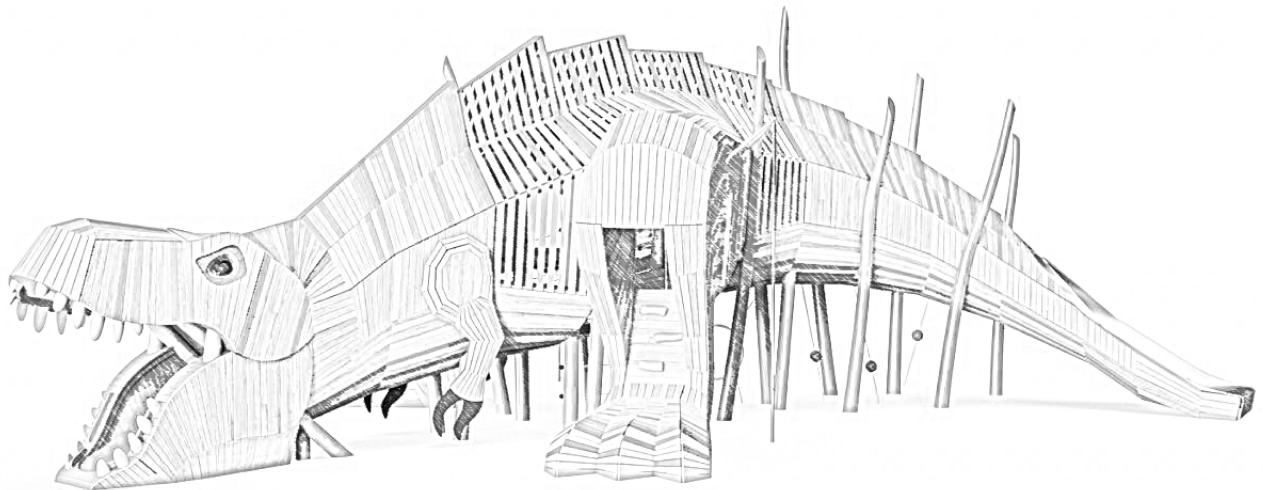

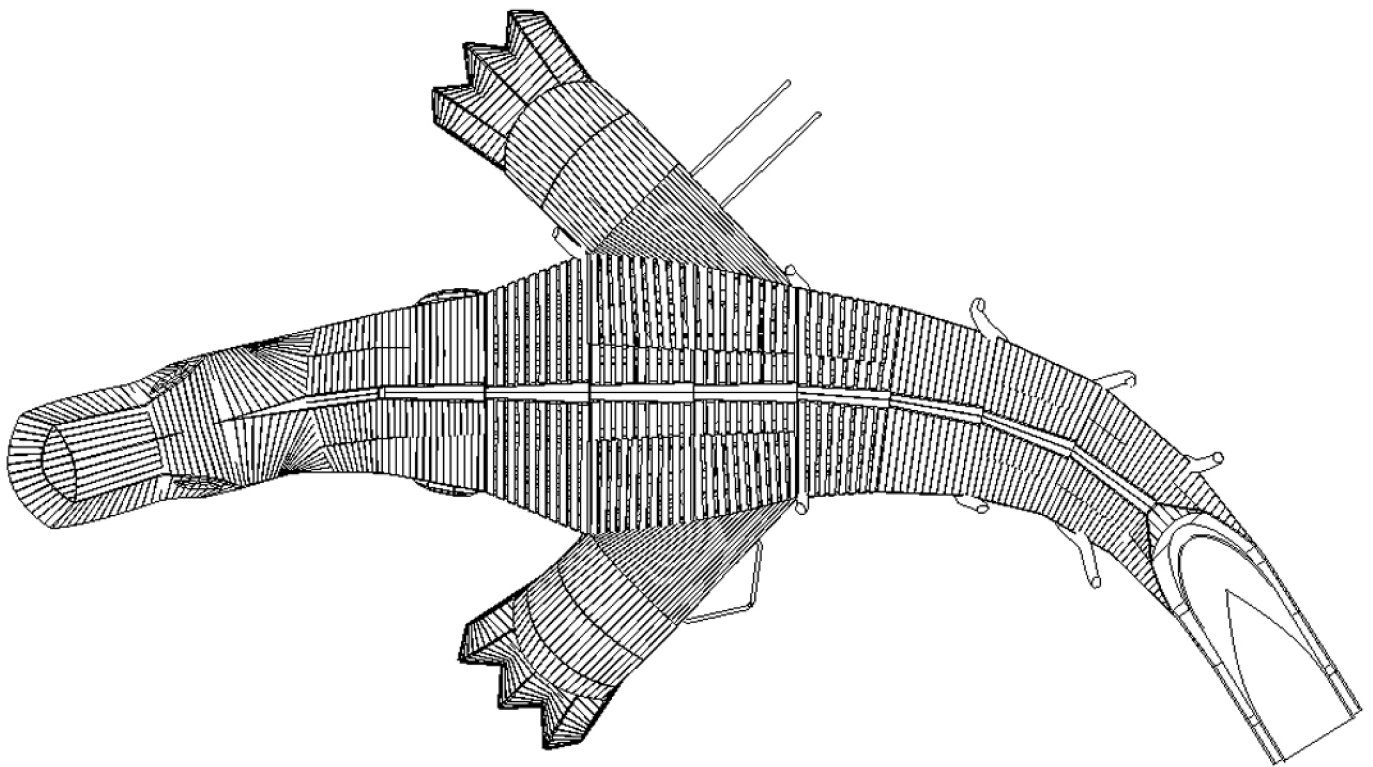

**This play sculpture concept from KOMPAN Design Studio can have the design, size and play activities that fit your needs.**

The large dinosaur holds a lot of exciting physical play features for big and small children from the age of six. To reach the slide, and have the joyful and stomach-tickling experience of sliding through the tail of The Dinosaur, the children must climb through its mouth, and conquer the challenging path over membranes, through nets and hoops, by using their body strength, balance, cross-coordination and ability to plan ahead.

**Product Line** Nature Play

**Category** Robinia Play Sculptures
