

MS32 Pirate Ship

The KOMPAN classic pirate ship inspires and attracts play in today's children as well as yesterdays'. The clear colours, round, friendly shapes and strong thematic play elements motivate imaginative play on end, again and again, year after year. The unit forms a whole playground with its diverse play activities and fun details. The open space behind the keel has benches for socializing. So has the enclosed cabin under deck, and additionally there is a hammock for gently swaying. An embankment net leads to the deck, and so does an accessible stairway. This allows for users of all abilities and ages to be involved in play. The many sensory activities add to dramatic play, thus stimulating language and communication. The slide, apart from being fun, stimulates spatial awareness. The net climber trains the cross-coordination and muscle strength.
