Luik Climbing Tree

KOMPAN[®]
Let's play

Even in the smallest playground a space can be found for the Luik, which also fits snugly into larger play environment. The unusual feature of bended blue pipes, positioned at intervals all the way up the trunk, makes the climbing up and down an easy task. The crown of the tree, which bends down to the ground, allows children to swing, climb or glide down the long steel pipes and finally land safely on the ground.

Product Line	Traditional Play
Category	Climbing structures & nets
Age group	6 - 12
Max. fall height (CM)	240
Total height (CM)	250
Safety Zone	26.5 m ²
