# Robinia Jungle Dome

**KOMPAN**  
Let's play

The Jungle Explorer Dome is an irresistible play adventure. Children of most ages and abilities will find a wealth of diverse play activities to venture into. And they will want to explore the swaying, bouncy feel of the nets, ropes and climbers again and again. The top net is a destination in its own right, offering plenty of meeting points for the brave climbers. The view through the transparent meshes to the ground add to the feeling of thrill and achievement. From ground level swaying seats invite groups meeting, thus training important social skills such as turn-taking and negotiation. The vertical, horizontal and inclined climbs in the Jungle Explorer Dome builds a feeling of achievement. But they also build important motor skills, such as sense of balance and space, that help children e.g. navigate traffic safely. They hugely promote physical activity for all ability levels, and train muscles.
