

The Voyager with its round shapes and bright colors is immensely attractive for young children. Once there, the richness of age-appropriate activities sustains the playing and encourages them to return. The Voyager's three levels offer layers of play from ground level and up to the elevated platform with a slide. The ground level sand play funnels stimulate the children's object permanence understanding and logical thinking skills. The panels have moveable items that run in grooves and can be played with from both inside and outside the structure, training the children's fine motor skills as well as their logical thinking and turn-taking skills. The slide down is a fun reward for climbing up and additionally develops the toddlers sense of balance and the spatial awareness.

Product Line	ELEMENTS™
Category	ELEMENTS™ TOTS
Age group	1+
Max. fall height (CM)	58
Total height (CM)	343
Safety Zone	26.8 m2
