

The Globetrotter offers an irresistible play journey for younger children. Thanks to the rich variation in activities, the children have new discoveries to make, time after time. The wide selection of intriguing sensory and responsive activities stimulate the child's thinking skills. Sand scoops, gearing wheels, music panels and turning tables make great points for concentrating on play. Additionally, they can work from both sides of panels, stimulating social skills such as turn-taking. A range of appealing physical activities train motor skills such as cross- coordination and balance: A small tunnel and slide make the beginning and end of the Globetrotter. Bouncy, swaying play events in the hammock and bridge train balance and cross-coordination. It is hilarious to bounce one another, and the bone density only grows stronger while jumping.

Product Line	ELEMENTS™
Category	ELEMENTS™ TOTS
Age group	1+
Max. fall height (CM)	58
Total height (CM)	354
Safety Zone	57.8 m2
