

The Hiker is a phenomenally spacious and truly varied play structure offering physical, social-emotional and cognitive-creative activities for large groups of the younger children. The fun activities attract children back time after time. The bouncy climbing access is a physical and social play opportunity, as are the climbing nets, sturdy panel climbing walls, stairs and rope ladders. The features are a huge factor in training the cross-coordination and spatial awareness of toddlers. These are motor skills, fundamental for managing vital proficiencies like spatial awareness and its importance with road safety. On the elevated level, a vast selection of bridges and egresses ensure thrilling play, stimulating social interaction and turn-taking skills. At ground level, many corners for quieter and sensory play add training of dexterity and thinking skills, for all abilities.
