

PCM001800

Multi deck play tower, wood posts

KOMPAN[®]
Let's play

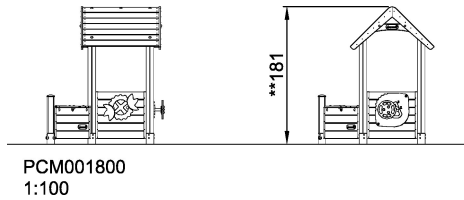

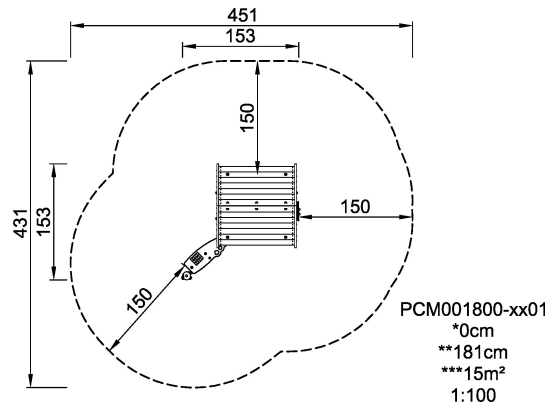

Besides the recognizable home-theme structure this playhouse offers four extra activities. The driving panel will encourage dramatic play, and the numbered gear shift will help them learn early numeracy. A port window is the perfect panel for peeking through while a crawl-through with flaps encourages children to explore. The panels are accessible from both sides allowing at least two children to play with them at any time.
