# Play Tower, Physical

**KOMPAN**<sup>®</sup>  
Let's play

The tall, roomy play house on poles can be accessed by the sturdy steel ladder using cross-body coordination and muscle power. At the top of the stair and extra handhold supports the climb and entry into the house. There are two exits: the slide, offering stomach tickling joy which causes endless loops running up the stairs and sliding down again. Or, for the dare devils, the speedy, thrilling fireman's pole that really sparks the sense of space, speed and gravity, is a fun variation.
