# Play Tower, Physical, ADA Stairs

The tall, roomy play house on poles can be accessed by all via the ADA staircase, wide enough to room an assistant and with good grips in the side panels and the floors. The transfer platform at the bottom of the stairway makes for a good seat as well. There are two exits: the slide, offering stomach tickling joy, worth endless loops up the stairs and down the slide. Or, even better, a seated, rotating slide movement down the curly climber, holding onto the pole in the middle for extra support.
