Play Tower, Physical, ADA Stairs

This structure offers all support for physical play and activity: An ADA staircase, wide enough to room an assistant and with good grips in the side panels and the floors, leads the way to the house. From the platform the slide offers a stomach tickling, classic ride of joy to the ground. Alternatively, the platform can be accessed or egressed from the wide net, which supports varied climbing with its masks big enough for climbing through and the supportive ladder and small meshes for faster climbs.
