

PCM101300

Double playhouse with balcony, steel posts, st. steel slide

KOMPAN[®]
Let's play

This double playhouse with balcony offers a spacious play area with a number of different activities. The toddler trains his or her gross motor skills by climbing up onto the platform from where the slide provides the child with a fun and exciting exit from the platform. The port window is a fun to hide behind and to peek through while the flower panel allows the toddler turn the flowers on one side while flowers on the other side will also turn. From the balcony children can interact.
