# Gate Watch Tower with Roof & Plastic Slide

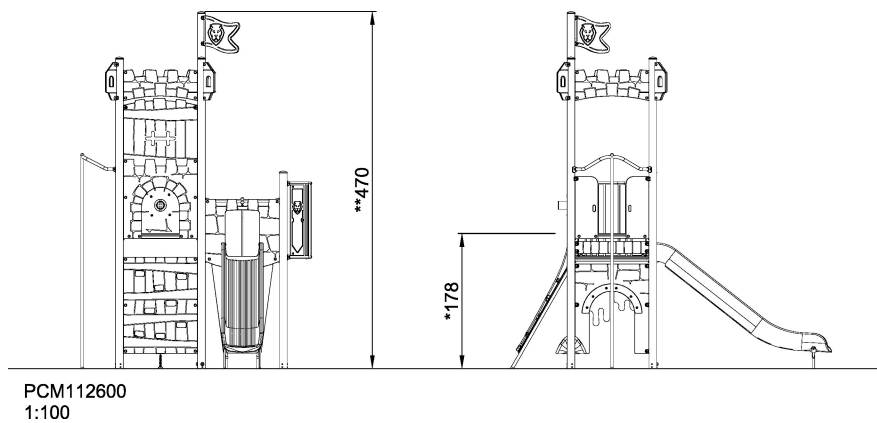

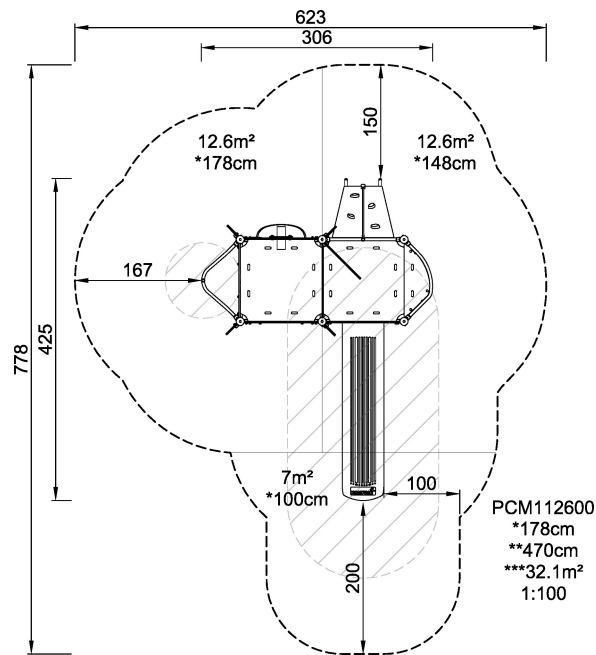

This fun castle structure offers high density physical and role play with its classic castle theme and physical activities that stimulate motor skills such as cross body coordination and sense of space. The tower can be entered by either a vertical climbing wall, a rappelling wall or by stairs. Once at the higher levels there is a choice of taking a view of the play area from the balcony or taking a more traditional slide or the fast fireman's pole down to ground level. On ground level of the castle a rocking hammock and a slime door create a good play space.
