Castle Fortress with Roof

KOMPAN
Let's play

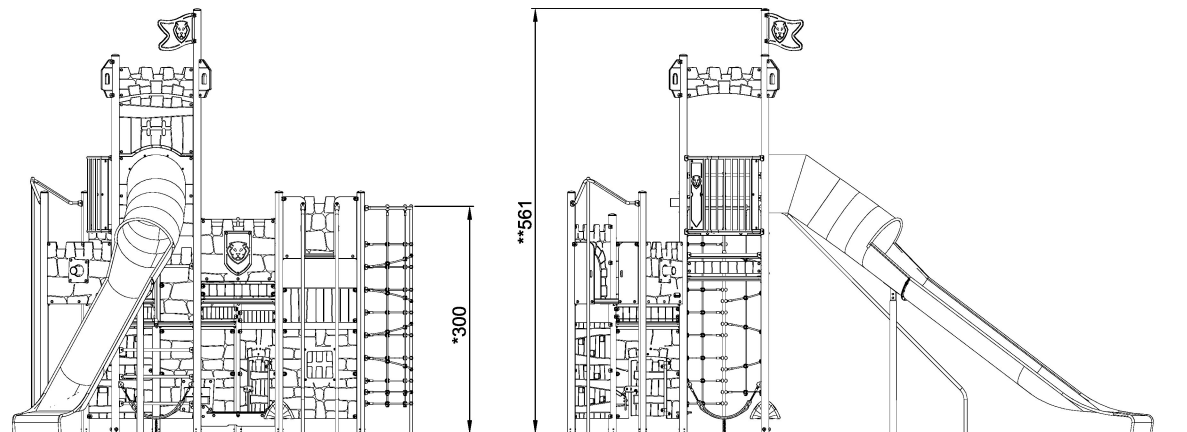

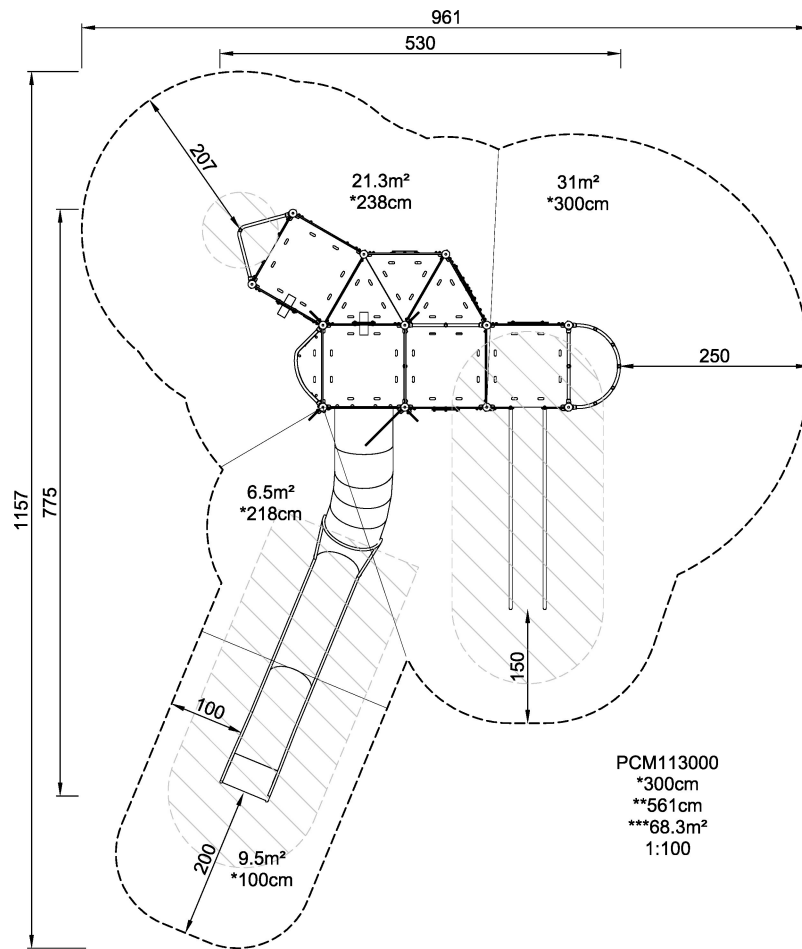

This great Castle Fortress offers a multitude of play activities that stimulate both physical skills and role play in a fantastic varied play structure. The Castle can be entered from a vertical climbing wall, a curved climbing net or up the steel ladder. Once on elevated level different activities support children's physical development when sliding down the huge thrilling slide, banister bars or when jumping down the fireman's pole. On the ground level of the Castle a treasure box, the jail window and castle door stimulate children's fine motor skills and teach them about cause and effect.
